## Infection control: what you can do

If you have recently had diarrhoea and/or vomiting, please wait until 48 hours has elapsed from your last symptom before visiting the hospital. Patients/visitors who suspect that they may have an infection should telephone the ward or department and ask for advice before coming in.

The best way you can help contribute to preventing germs passing from one patient to another is by washing your hands and using the hand gel which you will find in all clinical areas.

Please help us keep our hospitals clean and tidy. By disposing of waste (for example used tissues or sweet wrappers) in the household waste bins provided.

## Tell us your views

If you have any suggestions on how we can improve our service or if you have any concerns you would like addressed, please contact the Patient Advice & Liaison Service (PALS) on 0118 322 8338 or email PALS@royalberkshire.nhs.uk.
