

Gynaecology Strategy

We strive to be a trusted partner in every part of your Gynaecological health journey. Our commitment is to create a supportive environment where you feel valued, understood, and inspired to take control of your health.

Ambition 1

We will have a physical environment where patients feel comfortable and our staff feel inspired.

Ambition 2

We will deliver equitable care that promotes health and wellbeing

Ambition 3

We will build a future-focused team where staff develop and grow professionally.

Ambition 4

We will simplify the patient journey and ensure a joined up approach across our system.

What we will do

Work with our system partners to implement women's health hubs

Support those who advocate for seldom heard communities and patient groups

Empower patient's to understand and manage their healthcare needs

Invest in educators and those with line management responsibilities to ensure all staff have clear pathways for personal and professional development

Develop our academic links through the health innovation partnership

Streamline referral pathways to improve patient experience

Using local data to strengthen operational performance

Measuring success

We see improvements in patient feedback

Staff confidently speak up about their experiences at work.

Patients from minority ethnic groups have equal access to care

Patients travel shorter distances to receive care

We become a department of choice for staff seeking new roles

We have developed staff skills to meet the need of our patients

Patients receive the right care, from the right team at the right time

Patients requiring elective and emergency care are seen in a timely way
