

Mask wearing guidance when visiting the hospital

Due to respiratory illness circulating in the community we are asking:

Visitors to our inpatient areas to consider wearing face masks while attending appointments or visiting patient areas in the hospital to help keep everyone safe.

And to stop the further spread of winter illnesses, please don't visit if you are feeling unwell, including if you:

- Have a cough, cold or flu like symptoms,
- Had diarrhoea or vomiting in the last 48 hours.

If you are due to come in for an appointment, and have any of these symptoms, please call the number on your correspondence to rearrange.
