

Advice following your biopsy

In order to reduce the risk of infection:

- Use sanitary pads instead of tampons
- A shower is preferable to a bath
- Avoid penetrative sex until discharge stops
- Avoid swimming

After biopsies, you may have a discharge for up to a week.

This discharge may be red-brown in colour at first and will change as healing takes place.

If you have any concerns, please ring us on 0118 322 7197.

To speak to a nurse following your visit, call the Lead Nurse Colposcopist on 0118 322 7283, or leave a message and she will get back to you.

Out of office hours or at the weekend, call Sonning Ward on 0118 322 8204 / 8458.

Results can take up to 4 weeks to be sent out.

Please only call to chase them if this time has elapsed.
